Floor Balance LD-LFRB-A11

Overview

LD-LFRB-A11 Floor Balance is a robust weighing solution designed for industrial, warehouse, logistics, production, packaging, and quality-control applications. Its durable construction and multifunctional operation provide reliable performance for routine heavy-load weighing requirements.

Features:

- Heavy-duty construction for demanding working environments
- Durable stainless-steel weighing platform
- Bright and easy-to-read digital display
- Fast and stable weighing operation
- Tare function for container and packaging compensation
- Piece-counting capability for inventory and material handling
- kg/lb conversion for flexible weighing applications
- Overload and under voltage protection
- Integrated levelling system for stable positioning
- AC/DC operation for convenient use
- Optional data communication and printing capability

Applications:

Floor Balance is used for weighing as quality control device with check weighing functions and stable weighing system, full range tare, counting, unit's conversion function.

Specifications:

Feet	Anti-slip levelling feet
Display	Red LED
Printer	Optional
Levelling	Integrated level indicator
Linearity	±30 g
Protection	Overload and under voltage protection
Readability	10 g
Power Supply	AC/DC
Platform Size	400 × 500 mm
Repeatability	±20 g
Data Interface	Optional RS232
Frame Material	Spray-coated steel

Load Cell Type	Strain gauge
Maximum Capacity	310 kg
Platform Material	Stainless steel
Stabilization Time	?2 s
